REMARKS

This is intended as a supplemental response to the Final Office Action dated September 30, 2003, and to the Board of Appeals decision dated May 18, 2005.

Claims 1-32 and 34-36 are pending in the application. The rejection of claims 1-4, 11, 13-15, 21, 24, and 25 by the Examiner has been reversed by the Board of Appeals. Claims 5-10 and 34-36 are rejected.

Applicants propose amending the specification to correct typographical errors. Applicants submit that the changes proposed herein do not introduce new matter.

Applicants are submitting a replacement drawing sheet for Figure 5. Previously omitted reference numerals "400" and "418" have been added. Support for the drawing amendment is provided by the paragraph at page 11, lines 19-31 of the specification. Applicants submit that the drawing amendment does not introduce new matter.

Applicants propose canceling claims 5-10 and 34-36. Applicants respectfully submit that the proposed amendments do not introduce new matter or new issues, and place the application in condition for allowance.

In conclusion, the references cited by the Examiner, neither alone nor in combination, teach, show, or suggest the invention of the claims as amended. Having addressed all issues set out in the office action, Applicants respectfully submit that the claims are in condition for allowance and respectfully request that the claims be allowed.

Respectfully submitted,
